DETAILED ACTION

Allowable Subject Matter

1. Claims 1-18 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claim 1 recites, inter alia, set point is a rising set point when the time derivative of the converter input voltage is higher than a negative first threshold value and a falling set point when the time derivative of said converter input voltage is lower than a positive second threshold voltage, the rate of variation of the average power when said set point is a rising set point being lower than the opposite of the rate of variation of the average power when said set point is a falling set point.

Claim 12 recites, inter alia, converter of an input power set point that is a rising set point when the time derivative of the converter input voltage is higher than a negative first threshold value and a falling set point when the time derivative of said converter input voltage is lower than a positive second threshold voltage and the rate of variation of the average power when said set point is a rising set point is lower than the opposite of the rate of variation of the average power when said set point is a falling set point.

The art of record does not disclose the above limitations, nor would it be obvious to modify the art of record so as to include either of the above limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
